

African Explosion-proof Distribution Box Manufacturer

Overview

Selected Manufacturers of Explosion-proof Distribution Boxes in Chapter 2, to profile the top manufacturers of Explosion-Proof Distribution Box, with price.

Key Takeaways

Key explosion-proof distribution box brands in Africa include EXB Electric (CEAG), Warom, CCG, and Extech Safety Systems, all offering certified solutions for hazardous environments. Leading Brands and Suppliers

EXB Electric represents Eaton Industries and Ceag GmbH, providing a wide range of explosion-protected installation products, including flameproof and encapsulated distribution boxes. Their enclosures meet EN 60079 standards and are suitable for Zones 1, 2, 21, and 22, offering chemical resistance and reliable operation in harsh conditions. Warom Technology specializes in explosion-proof electrical equipment, including distribution boxes, control equipment, and motor switches. Their products comply with international standards such as IEC, ATEX, and IECEx, and are widely used in petroleum, chemical, marine, and mining industries. CCG (Cable Gland Company) offers the Posifit® and Ex Junction Box range, manufactured from UV, chemical, and impact-resistant GRP. These boxes are tested for gas and dust explosive atmospheres and have approvals from ABS, DNV, and Germanischer Lloyd, making them suitable for offshore, petrochemical, and mining applications. Extech Safety Systems provides certified hazardous area products, including intrinsically safe (Exi) and flameproof (Exd) distribution boxes. They are authorized representatives for Eaton MTL, Beka Associates, i.safe MOBILE, AEGEx, Armadex, and SenSear, offering technical support and solutions across Southern Africa.

Key Considerations

- **Standards Compliance:** Look for ATEX, IECEx, and local certifications to ensure safety in explosive atmospheres.
- **Material Selection:** Stainless steel (AISI 316L/304L) or GRP enclosures are common for corrosion resistance and durability.
- **Application Zones:** Ensure the distribution box is rated for the specific hazardous zone (Zone 1, 2, 21, 22) relevant to your site.
- **Regional Support:** Brands with local offices or distributors in Africa, such as EXB Electric and Extech, provide faster delivery, installation support, and maintenance services. These brands represent the most reliable options for industrial explosion-proof distribution boxes in Africa, combining international standards compliance with local support and technical expertise.
