Key Takeaways

Key manufacturers of electrical distribution boxes in Africa include Allbro, Schneider Electric South Africa, Twodigits Trading, and PPS Power Process Systems. Leading Manufacturers

Allbro is a major South African manufacturer of non-metallic enclosures, junction boxes, and DB boards. They produce well-known brands such as York, Okari, Enlec, Utilec, PSO1, and PSO2, all manufactured locally to international standards, suitable for industrial, commercial, and residential applications . Schneider Electric South Africa offers modular electrical distribution boxes that can be surface-mounted or flush-mounted, with metal and techno-plastic options. Their enclosures comply with IEC 61439 standards and are available in 13, 18, and 24 module configurations, catering to both domestic and industrial installations . Twodigits Trading (Pty) Ltd supplies a range of domestic and industrial distribution boards, including surface, flush, and floor-mounted options. Their enclosures are available in mild or stainless steel and are rated from IP44 to IP65, supporting decentralized electrical installations and building automation . PPS Power Process Systems manufactures electrical distribution boards, kiosks, boxes, and LV switchgear to ISO 9000 standards. Their facility produces enclosures in stainless steel, mild steel, DMC/fiberglass, or polyethylene. PPS emphasizes custom specifications, high-quality standards, and rapid delivery, making them a leading supplier for large-scale reticulation projects in South Africa .

Considerations for Selection

When choosing a manufacturer, consider:

- Material and durability: Options include plastic, mild steel, stainless steel, and fiberglass.
- Standards compliance: Look for IEC 61439 or SABS certification for safety and reliability.
- Mounting type: Surface, flush, or floor-mounted enclosures depending on installation needs.
- Customization: Some manufacturers offer bespoke solutions for OEM or industrial projects. These manufacturers provide a strong starting point for sourcing electrical distribution boxes in Africa, particularly in South Africa, with products suitable for both local and international applications.
