

Australian Optical Cable Custom Manufacturer

Overview

Top Fiber Optic Cable Manufacturing Companies in Australia Identify and compare relevant B2B manufacturers, suppliers and retailers. Max. Anderson Corporati.

Key Takeaways

Australia hosts several leading custom optical cable manufacturers capable of delivering tailored fibre optic solutions for diverse industries. Key Custom Optical Cable Manufacturers in Australia

1. Custom Wire Assembly Specializes in custom optical cable assemblies for telecom infrastructure, industrial systems, medical equipment, imaging devices, and high-bandwidth electronics. They provide end-to-end services from prototype to production, including documented testing, fit-for-application build control, and hybrid assemblies combining power, control, or data conductors alongside fibre. Their assemblies are designed for long-term reliability, connector density, polarity, and service access, ensuring consistent performance in demanding environments . 2. Fibre Optic Systems (FOS) Headquartered in Knoxfield, Melbourne, FOS is a manufacturer, distributor, and solutions provider with over 25 years of experience. They focus on rapid production of fibre optic and copper products, offering tailored solutions with fast turnaround from design to delivery. FOS emphasizes innovation, quality, and close collaboration with clients to meet project goals and budget requirements . 3. Anderson Corporation Pty Ltd A prominent player in the Australian fibre optic industry, Anderson Corporation offers a wide range of high-quality fibre optic cables and custom assemblies, including indoor/outdoor tight-buffered multimode and singlemode cables. They also provide specialized tools like fibre optic drop cable slitters and collaborate with other manufacturers to deliver tailored solutions . 4. Fotech Fotech provides fibre optic construction, splicing, testing, and project delivery for major telecommunications networks. ISO-certified, they ensure efficient and precise execution of projects nationwide, making them a reliable partner for large-scale or complex fibre optic installations . 5. Optical Fibre Systems Pty Ltd Operating since 1990, this company offers high-quality optical fibre cable, consumables, splicing, testing equipment, and on-site termination services, supporting both installation and maintenance of fibre networks . 6. Rojone Pty Ltd While primarily known for coaxial cable assemblies, Rojone also provides custom fibre optic solutions for high-bandwidth, military, aerospace, and telecommunications applications. They offer hybrid and ruggedized constructions, semi-rigid cable assemblies, and fully tested solutions suitable for demanding environments .

Considerations for Choosing a Manufacturer

- Customization Needs: Define connector type, fibre count, polarity, route protection, and hybrid requirements.
- Quality and Certification: Look for ISO-certified manufacturers for reliable and standardized production.
- Project Scale: Consider manufacturers with experience in large-scale telecom or industrial projects.
- Turnaround Time: Companies like FOS specialize in rapid production and delivery.
- Support Services: On-site testing, splicing, and maintenance support can be critical for complex installations. These manufacturers collectively cover a wide spectrum of custom optical cable solutions, from prototype development to large-scale deployment, ensuring high performance, reliability, and compliance with industry standards.
