

Customized ladder-type cable tray price

Overview

Ladder Type Cable Tray Price List GuideA practical, no-fluff guide to understanding ladder type cable tray pricing—what drives cost, when specs matter most.

Key Takeaways

The price of customized ladder-type cable trays varies widely, typically starting from around ₹90 per meter for basic steel trays, with higher costs for stainless steel, aluminum, or fireproof options.

The cost of a customized ladder-type cable tray depends on several factors:

- **Material:** Steel trays are generally the most affordable, starting at approximately ₹90 per meter in India, while stainless steel (201/304/316/316L) and aluminum trays are more expensive due to corrosion resistance and durability . Fiberglass or FRP trays also command higher prices for specialized applications .
- **Galvanization and Coating:** Pre-galvanized trays are lower in cost, whereas hot-dip galvanized trays offer longer life and anti-corrosion properties, increasing the price .
- **Customization:** Custom sizes, additional accessories like dividers, covers, bends, tees, or reducers, and OEM/ODM options can significantly affect the overall cost .

- **Load Capacity and Size:** Larger trays designed for heavy-duty or high-voltage cables are more expensive due to increased material and engineering requirements .
Supplier Examples
 - **IndiaMART Suppliers:** JP Electrical and Controls and Global Manufacturers & Traders offer ladder cable trays starting at ₹90 per meter, while Parmar Metals Private Limited starts at ₹98 per meter .
 - **Alibaba and Made-in-China:** Suppliers provide a wide range of materials and custom options, with prices varying based on material, size, and additional features like fireproofing or anti-rust coatings .
 - **JLH Electric:** Offers custom ladder-type cable trays in steel, stainless steel, aluminum, or FRP, with bulk order pricing and OEM/ODM services available .
- Recommendations**
- Determine the total cable load and required tray dimensions to ensure proper sizing and airflow for cooling .
 - Consider future expansion and maintenance access when selecting tray width and rung spacing.
 - Contact multiple suppliers to compare bulk order pricing and delivery options, especially if specialized materials or custom designs are required. By evaluating these factors, you can select a ladder-type cable tray that balances cost, durability, and suitability for your specific installation needs.
