

Direct Sales of Non-Standard Explosion-Proof Distribution Boxes in China

Overview

Warom Group is a leading manufacturer of explosion-proof lighting and electrical equipment in China.

Key Takeaways

China offers a wide range of explosion-proof distribution boxes with direct sales options, including non-standard and customized solutions from certified manufacturers. Leading Manufacturers and Suppliers

Several Chinese companies specialize in explosion-proof distribution boxes and provide direct sales, including customization for non-standard requirements:

- Zhejiang Tengxuan Explosion Proof Electrical Appliance Co., Ltd.: Offers explosion-proof distribution boxes, control boxes, and operation columns. They provide OEM services and handle import/export of electrical equipment .
- Shandong Zhongtan Intelligent Equipment Co., Ltd.: Manufactures intelligent instruments, mining machinery, and explosion-proof electrical appliances, with capabilities for custom solutions .
- Hengshui Shuangri Explosion Proof Equipment Co., Ltd.: Supplies assembled distribution boxes, explosion-proof junction boxes, and offers tailored configurations for industrial applications .

- Shenhai Explosion-proof Technology Co., Ltd.: Provides explosion-proof lights, junction boxes, and distribution boxes, certified under ISO9001, ISO14001, ISO45001, ATEX, and IECEx standards, suitable for hazardous environments .

- CZ Electric Co., Ltd.: Specializes in explosion-proof isolation switches, safety switches, and MCB boxes, with ATEX and IECEx certifications and international distribution .

Customization and Non-Standard Options

Chinese manufacturers frequently offer non-standard and OEM solutions, including:

- Custom busbar configurations and cable entry modifications
- Logo embossing and branding for corporate identity
- Modular and IP-rated enclosures tailored to specific industrial requirements
- Rapid prototyping and small-batch production for specialized projects

Compliance and Certification

For industrial safety and international projects, it is crucial to select suppliers with certifications:

- ATEX EU certification for explosive atmospheres
- IECEx international certification for global compliance
- ISO quality management systems (ISO9001, ISO14001, ISO45001)
- National explosion-proof product quality inspection certificates

Procurement and Direct Sales

- Many suppliers provide direct sales and wholesale options, with pricing dependent on order volume, specifications, and customization level .
- Lead times vary: stock items may ship quickly, while custom non-standard boxes require longer production periods.
- Contacting suppliers directly via inquiry forms or B2B platforms ensures quotes, technical consultation, and rapid procurement.

Recommendations

- Identify your specific non-standard requirements (dimensions, voltage, IP rating, hazardous area classification).
- Verify supplier certifications and compliance with ATEX/IECEx standards.
- Request OEM or custom quotes to compare pricing and delivery schedules.

- Consider suppliers with experience in hazardous industries like petroleum, chemical, or mining for reliable performance . By leveraging these manufacturers, you can secure directly sold, non-standard explosion-proof distribution boxes in China that meet both safety and operational requirements.
