

Distribution box with automatic control

Overview

Smart home distribution boxes let you control your home's electricity. You can also manage circuits from far away. Our system distribution boxes can accommodate all the components of building automation and offer pluggable interfaces to the field level for fast and error-free installation. More families trust smart technology for power and ease. A home. Siemens Distribution Automation functionality ranges from monitoring to fully automated applications, including FLISR (fault location, isolation and service restoration), voltage and reactive power compensation and power quality. Ensure an efficient, stable, secure and sustainable power supply and. Fully encapsulated distribution boxes for harsh field requirements with protection class up to IP67 Our sensor actuator boxes are equipped with metal threaded rings as standard. This ensures a particularly secure screw connection.
