

Fiber optic cable deliberately cut

Overview

The internet and cable provider reported that vandals deliberately cut fiber optic lines in Van Nuys, impacting services across Los Angeles, including areas like North Hollywood and parts of ...

Key Takeaways

Charter Communications says a network outage that disrupted telecom services for thousands of Southern California residents in mid-June was the result of a deliberate act of vandalism on its fiber network. Fiber optic cables are used to transmit data over long distances with minimal loss, and cutting the line disrupts this transmission. A 12-year-old Ukrainian stopped a Russian FPV drone by destroying its fiber optic cable. He had previously been taught the technique by a Ukrainian soldier. The vandalism left more than 50,000 Spectrum residential, business and government subscribers without service in mid-June. (Courtesy photo, composite image by The Desk) Charter Communications. Telecommunications giant Bell is exploring surveillance options in the Gulf of St. The audio version of this article is generated by AI-based technology. It's essentially the internet's equivalent of a severed artery, drastically impacting connectivity and requiring immediate action to restore. The internet and cable provider reported that vandals deliberately cut fiber optic lines in Van Nuys, impacting services across Los Angeles, including areas like North Hollywood and parts of Orange County such as Anaheim and Santa Ana.
