Fiber optic quick connector hot melt

Overview

This fast connector system removes any requirement for epoxy, adhesives or costly curing ovens, and offers a top installation quality with a high success rate and reliability. 1) Factory-installed fiber stub. 2) No epoxy and polishing required, No special tools needed when. TXM's Quick Assembly Hot Melt connectors provide a quick and easy termination of fibers in the field. These field connectors allow the installer to terminate fiber in minutes out in the. Hot-melt quickly assembly connector is directly with a grinding of the ferrule connector directly with the butterfly cable 3.9mm using a fusion splicer welding, the welding point inside the connector tail, the weld is no need for additional protection. Simple assembly process, convenient operation. The 8602-S Hot Melt LC is a singlemode.
