

RIVO MULTITRADE OPTICAL SYSTEMS

Fiji Fiber Optic Grating Manufacturer

Overview

To manufacture and market fiber Bragg grating products, you need a fiber Bragg grating license. O/E LAND INC.

Key Takeaways

Opneti Communications Co Ltd is a key manufacturer of passive optical components in Fiji, potentially including fiber optic gratings. Key Companies and Capabilities

Opneti Communications Co Ltd specializes in the production of passive optical components, covering opto-mechanical parts and telecom test instrumentation. Their manufacturing capabilities allow them to deliver high-quality components with competitive pricing, making them a primary option for fiber optic gratings and related optical devices in Fiji. Datec Fiji PTE LTD provides comprehensive fiber optic services, including design, installation, splicing, testing, and maintenance. While they focus on network deployment rather than manufacturing, they are a reliable partner for integrating fiber optic gratings into operational networks and ensuring optimal performance. GDC/iMatai is a Fiji-owned company with extensive experience in data and communication networks across the Pacific. They offer technically complete solutions and can support projects involving fiber optic components, though their primary focus is on deployment and network management rather than component manufacturing. FNE Communications provides telecommunications construction and support services in Fiji. They can assist with installation and maintenance of fiber optic systems, but do not explicitly manufacture gratings.

Summary

For fiber optic grating manufacturing in Fiji, Opneti Communications is the most relevant company, offering production of passive optical components suitable for telecom and data applications. For installation, integration, and maintenance of fiber optic systems that utilize gratings, Datec Fiji and GDC/iMatai provide comprehensive services. Partnering with these companies can ensure both high-quality components and professional deployment within Fiji and the Pacific region.
