Fixed price of cables in cable trays

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

The price of cable trays with fixed cables varies widely depending on material, size, load capacity, and supplier, typically ranging from \$20 to \$200 per meter for standard industrial setups.

Factors Affecting Price

- **Material:** Steel (galvanized or stainless) is more expensive than aluminum or plastic, but offers higher load capacity and durability .
- **Tray Type:** Ladder-style trays for heavy power cables cost more than perforated or solid trays for lighter cables .
- **Cable Inclusion:** Pre-installed or fixed cables increase the cost significantly, as the price includes both the tray and the cable type (power, data, or control).
- **Size and Length:** Wider trays or longer runs increase material and labor costs. Standard widths range from 100 mm to 600 mm, and lengths are usually 2-3 meters per section .
- **Standards Compliance:** Trays meeting DIN EN 61537 or IEC standards may be priced higher due to certification and quality assurance .

- **Supplier and Delivery:** Prices vary by supplier and region. Online suppliers like RS, McMaster-Carr, and CEF offer different pricing tiers and shipping options .

Typical Price Ranges

- Plastic or halogen-free trays without cables: \$20-\$50 per meter .
- Steel or aluminum trays without cables: \$50-\$100 per meter .
- Trays with pre-installed power or data cables: \$100-\$200+ per meter, depending on cable type and quantity .

Recommendations

- Request a quote from suppliers for trays with fixed cables, specifying cable type, length, and load requirements.
- Consider modular systems that allow future cable additions, which can reduce long-term costs.
- Check compliance with local electrical standards to ensure safety and warranty coverage.

By considering these factors, you can estimate the cost of cable trays with fixed cables for your project and compare suppliers effectively.
