How much does Huijue 4-core single-mode fiber cost

Overview

Fiber Optic Cable Explore our Fiber Optic Cable collection, featuring main products like Optical Splitter, Fiber Patch Cord, and 695+ more items from Huiju.

Key Takeaways

Huijue 4-core single-mode fiber typically costs between \$2 and \$7 per foot, depending on cable type, connectors, and pre-termination options. Estimated Pricing

The cost of a 4-core single-mode fiber from Huijue depends on several factors:

- Cable type and construction: Standard indoor cables are less expensive, while armored or plenum-rated cables cost more. Single-mode fiber itself generally ranges from \$0.10 to \$0.50 per foot, with multi-core cables slightly higher due to additional strands .
- Pre-terminated assemblies or patch cords: Factory-terminated cables with connectors (SC, FC, LC, etc.) increase the price, often ranging from \$2 to \$7 per foot .
- Length and quantity: Bulk purchases reduce per-foot cost, while short custom lengths or small orders may be more expensive .

- Connector type and polish: UPC or APC polish, and connector type (SC, FC, LC, MTRJ) can affect pricing . For example, a 1-meter 4-core FC UPC patch cord from Huijue is available, but the exact price is typically negotiated with the supplier based on order size and shipping .

Additional Considerations

- Application: Outdoor, direct-burial, or armored cables cost more than indoor riser-rated cables .
- Delivery and shipping: Costs may vary depending on location and shipping method, especially for international orders .
- Quality and testing: Huijue fibers are 100% factory-tested and ISO/RoHS compliant, which may slightly increase cost but ensures reliability . In summary, for a Huijue 4-core single-mode fiber, expect a price range of roughly \$2-\$7 per foot for pre-terminated patch cables, with bulk or standard cables potentially lower. For precise pricing, contacting Huijue directly is recommended to account for length, connectors, and shipping .
