

Jamaica Telecom Fiber Optic Cable

Overview

Their Hybrid Fiber and Coaxial (HFC) network in Kingston and Montego Bay metro areas delivers cable internet—the same technology used by cable companies worldwide. Speeds range from basic plans around 10-20 Mbps up to premium tiers hitting 100+ Mbps. Minister of Finance and the Public Service, Hon. Fayval Williams, says the Government's investment in sub-sea fibre-optic cable will reduce connectivity costs and facilitate business to boost economic growth. The Government recently signed a letter of intent with Trans Americas Fiber System for the. Telecommunications in Jamaica include radio, television, fixed and mobile telephony, and Internet services. The sector is regulated by the Office of Utilities Regulation (OUR) and the Spectrum Management Authority (SMA) under the Ministry of Science, Energy and Technology (MSET). We provide a “one stop shop” for all. Fixed-line broadband—fiber-optic or cable internet—often delivers faster, more consistent speeds than mobile broadband. Fiber can hit hundreds of megabits per second or even gigabit speeds. Our insights help businesses to make data-backed strategic decisions with ongoing market dynamics.
