

RIVO MULTITRADE OPTICAL SYSTEMS

Lithium Battery Optical Cable Equipment Manufacturer

Overview

lithium-ion machines Are you planning to invest in lithium-ion or sodium-ion battery manufacturing equipment?

We have Lithion Battery Inc.Lithion Solutions.

Key Takeaways

Leading manufacturers for lithium battery and optical cable production include Rosendahl Nextrom, YIFI LASER, ANDRITZ Sovema, and Xiaowei Top, offering turnkey solutions and specialized machinery.Rosendahl Nextrom

Rosendahl Nextrom is a global leader in production technologies for batteries, cables, and optical fibers. Their BM brand provides sophisticated solutions for lithium-ion and lead-acid battery production, including machines for cylindrical, prismatic, and pouch cells . The Rosendahl brand focuses on metal and fiber optic cable production, while Nextrom specializes in telecom and specialty fiber production equipment, offering high-speed rewind lines and comprehensive fiber-to-cable solutions . The company operates worldwide and emphasizes customization, quality, and innovation.

YIFI LASER

YIFI LASER, based in China's Optics Valley, specializes in intelligent laser systems and automated battery assembly lines. They provide turnkey solutions for battery cells, modules, and packs, integrating laser processing, automated workstations, and intelligent logistics . Their equipment is widely used in new energy batteries, photovoltaics, and automotive parts, supporting higher safety, reliability, and efficiency in battery manufacturing.

ANDRITZ Sovema

ANDRITZ Sovema offers innovative solutions across the entire lithium-ion battery production process, from raw material processing to cell assembly, formation, aging, and testing . Their production lines accommodate pouch, cylindrical, and prismatic cells, providing equipment for electrode preparation, tab welding, electrolyte filling, and quality control. ANDRITZ emphasizes efficiency, sustainability, and local support, making them a strong choice for scalable battery manufacturing.

Xiaowei Top

Xiaowei Top provides turnkey lithium battery production lines, including battery pack assembly, laboratory research lines, sodium-ion battery production, solid-state battery processes, and auxiliary machines . Their solutions cover electrode preparation, battery testing, and new energy battery materials, offering a comprehensive approach for battery manufacturers seeking integrated production capabilities.

Summary

For companies seeking lithium battery and optical cable production equipment, these manufacturers provide a range of solutions:

- Rosendahl Nextrom: Fiber optic and battery production machinery, high-speed cable lines.
- YIFI LASER: Intelligent laser systems and automated battery assembly lines.
- ANDRITZ Sovema: Complete lithium-ion production lines with testing and quality control.
- Xiaowei Top: Turnkey battery production lines and auxiliary equipment. These providers are suitable for highly automated, efficient, and scalable production in the battery and optical cable industries.
