## PZ30 Home Distribution Box

### Overview

The PZ30 Series Low Voltage Distribution Box is a modular electrical cabinet designed for safe and efficient power distribution in 220V/380V circuits. With modern aesthetics, safety-focused construction, and user-friendly features, it meets the needs of diverse applications. Price and other details may vary based on product size and color. Its durable design. PZ30 lighting distribution box is suitable for frequency 50HZ, rated voltage 500V and below, load current is not greater than 100A single-phase and three-phase circuits, for power and lighting, motor control, overload, leakage and short circuit Road protection. This versatile unit features a robust construction with high-quality thermoplastic materials, offering excellent protection against electrical. Enecell is a famous China PZ30 Electric Lighting Power Box Manufacturers and Lighting Distribution Box Suppliers, The PZ30 Lighting Distribution Box offers versatile applications, user-friendly design, and comprehensive protection, making it an ideal choice for modern buildings.
