Price list of cable trays in Israeli shopping malls

Overview

Price List Cable Tray 2024 - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online.

Key Takeaways

Cable trays in Israel range from approximately \$0.80 to \$76 per unit depending on type, material, and purchase volume. Overview of Pricing

Cable trays in Israel are available in various types, including ladder-type, perforated, solid-bottom, and wire mesh trays, with prices influenced by material (stainless steel, aluminum, galvanized steel, or FRP), size, and supplier. For retail (B2C) purchases, prices typically range from \$15 to \$34 per unit, suitable for small-scale or individual projects. For bulk or commercial (B2B) orders, prices can be significantly lower, starting around \$0.80 per unit and going up to \$76, depending on specifications and volume.

Suppliers in Israel

Several local manufacturers and suppliers provide cable trays across Israel:

- Jeetmull Jaichandlall (P) Ltd.: Offers a wide range of sizes, shapes, and colors, with high-quality finishing and adherence to industry standards.
- Cable House: Supplies durable and reliable trays, manufactured with graded raw materials and modern technology, offering competitive market prices.

- **Micro Sheet Crafts:** Provides customized cable trays and modular solutions, focusing on quality and timely delivery . These suppliers cater to industrial, commercial, and construction sectors, including shopping malls, data centers, hospitals, and high-tech campuses .

Factors Affecting Price

- **Material:** Stainless steel and fireproof FRP trays are more expensive than aluminum or galvanized steel .

- **Type and Size:** Ladder-type and perforated trays may cost more due to manufacturing complexity.

- **Volume:** Bulk purchases reduce per-unit cost significantly.

- **Compliance:** Products meeting Israeli electrical safety standards (SI 1015) and building codes may carry a premium .

Practical Advice

For shopping malls or commercial projects, it is recommended to contact suppliers directly to obtain customized quotes based on tray type, dimensions, and quantity. Many suppliers also offer installation accessories and fittings, which can affect the total cost. By comparing B2C and B2B options, buyers can balance cost, quality, and compliance to meet project requirements efficiently .
