Price of a 16-slot home electrical distribution box

Overview

Get free shipping on qualified Breaker Boxes products or Buy Online Pick Up in Store today in the Electrical Department.

Key Takeaways

A 16-slot household electrical distribution box typically costs between \$50 and \$200, depending on brand, features, and type. Price Range and Factors

For residential use, 16-circuit breaker boxes are available from brands like Siemens, Eaton, and Square D, with prices generally ranging from \$50 to \$150 for standard indoor main-lug models and up to \$200 for premium units with additional features such as integrated ground bars or surge protection. Wholesale or bulk options, often sourced from suppliers like Alibaba, may offer lower per-unit prices but are more suitable for commercial or industrial applications.

Features Affecting Cost

- **Material and Build Quality:** Steel enclosures are more durable than plastic and may cost more.
- **Circuit Protection:** Units with built-in fuses, surge protection, or automatic disconnection features are priced higher.
- **Mounting Type:** Wall-mounted, recessed, or outdoor-rated boxes can influence cost.

- **Brand Reputation:** Well-known brands like Square D or Siemens often command higher prices due to reliability and warranty coverage .

Purchasing Options

- **Retail Stores:** Home Depot and similar stores offer in-store pickup or shipping for 16-circuit breaker boxes .

- **Online Wholesale:** Alibaba and other suppliers provide bulk or specialized units, including metered, switched, or monitored types, which may be suitable for larger residential setups or small commercial installations .

Installation Considerations

Professional installation is recommended to ensure safety and compliance with local electrical codes. The cost of installation is additional and can vary depending on complexity and labor rates. In summary, for a standard household 16-slot distribution box, expect to pay \$50-\$200, with the final price influenced by brand, features, and installation requirements.
