Recommended Manufacturers of Stainless Steel Cable Trays in Greece

Overview

Stainless Steel Cable Tray In Greece Looking to buy a Stainless Steel Cable Tray in Greece?

Jeetmull Jaichandlall (P) Ltd. is one of the trustworthy Stainl.

Key Takeaways

TSA Industries and Ghinox are among the top Greek suppliers for high-quality stainless steel cable trays, offering 304L and 316L grades suitable for demanding industrial and construction applications.

Recommended Suppliers

TSA Industries specializes in stainless steel cable trays designed for construction and industrial projects. Their trays are made from 304L or 316L stainless steel, providing excellent corrosion resistance and durability. TSA emphasizes robustness, ease of installation, and compliance with hygiene standards, making their products suitable for harsh environments. They maintain a well-stocked warehouse and can dispatch products within 48 hours, ensuring rapid availability. Their technical team also provides guidance on selecting the most appropriate solutions for specific projects .

Ghinox is a professional supplier of stainless steel cable trays, offering both SS304 and SS316L materials. They focus on applications in offshore platforms, chemical plants, and hygienic food or pharmaceutical lines, where corrosion resistance and mechanical strength are critical. Ghinox provides high-strength, corrosion-resistant steel coils and plates for cable trays and ladders, compliant with IEC international standards and fully certified with MTC documentation, supporting long-term project reliability .

Key Considerations

- **Material Grade:** Use 316L for outdoor, maritime, or chlorine-rich environments due to superior pitting and crevice corrosion resistance. 304L is suitable for general indoor or less aggressive environments .
- **Durability and Load Capacity:** Ensure the trays can handle vertical loads, dynamic loads, and vibration from equipment or motor startups.
- **Installation and Maintenance:** Look for suppliers offering easy-to-install designs and technical support for long-term maintenance .
- **Compliance and Certification:** Choose suppliers with IEC standards compliance and MTC certification to guarantee quality and traceability .

Additional Options

Other Greek stainless steel companies, such as Euroinox, Nikitas Gavlas P.C., and Steel Form, offer a wide range of stainless steel products and may provide custom cable tray solutions depending on project requirements . For specialized cable management systems, Niedax and Eurotray also offer complete solutions for industrial installations .

By prioritizing material quality, supplier reliability, and technical support, you can select a Greek company that ensures long-lasting, safe, and efficient cable tray installations.
