

## SC type fiber optic distribution frame

### Overview

The ODF Fiber Optic Distribution Frame SC/APC-48 core is a compact and reliable fiber management solution designed for telecommunications operators, system integrators, and FTTH network deployments. Developed by Fenxi Optoelectronics Technology, this ODF integrates fiber termination, splicing. Fiber Distribution Box is made of high-strength steel, anti-UV, anti-aging ability. It can support patching for up to 24 SC fiber optic connections. It can also work as a protective device to protect. It is made of 1U/2U 19" cold-roll steel box, with plastic splice tray inside, suitable for pigtail, ribbon and bunch cable distribution. And it has metal sliding fittings with self-locking functions prevent the drawer from falling when moved.
