

South African molded cable tray manufacturer supplies

Overview

Cable Tray supplier in South Africa. We supply Wire Mesh, Perforated, and Return Flange Cable Trays.

Key Takeaways

Leading manufacturers of molded and perforated cable trays in South Africa include Brilltech Engineers, Advanced Strut, The Cable Manager, and Super Cable Tray Pvt. Ltd., offering high-quality solutions for industrial and commercial applications. Key Manufacturers and Suppliers

Brilltech Engineers provides a wide range of cable trays in South Africa, including perforated and molded types. Their trays are made from premium materials such as galvanized steel, stainless steel, and fiberglass, ensuring durability, safety, and compliance with industry standards. They also offer installation support, system design assistance, and maintenance guidance for various projects. Advanced Strut, based in Cape Town, manufactures and supplies cable ladders, wire mesh trays, and support channels. They cater to multiple sectors including electrical containment, data, plumbing, solar energy, and agriculture. Their products are suitable for surface wall mounting and support all relevant cable and pipe installations. The Cable Manager supplies a comprehensive range of cable trays, including wire channels, steel trunking, and power skirtings. They serve electrical contractors, construction companies, and industrial facilities across South Africa, providing competitive pricing and fast delivery. Super Cable Tray Pvt. Ltd. specializes in galvanized perforated, ladder, and wire mesh trays. Their products are corrosion-resistant and suitable for diverse climates. They also provide GI earthing strips and raceway cable trays for safe and efficient cable management in factories, hospitals, airports, and commercial buildings.

Product Types and Applications

- Perforated Cable Trays: Ideal for industrial and commercial settings, promoting airflow and preventing overheating.
- Wire Mesh (Basket) Trays: Commonly used in server rooms, data centers, and exposed ceiling installations.
- Ladder Trays: Suitable for heavy-duty cable support in factories and large buildings.
- Return Flange Trays: Designed for showroom or exposed installations where aesthetics are important. These manufacturers provide solutions for efficient cable management, enhanced safety, and easy maintenance, with options for customization based on project requirements. For projects in South Africa, contacting these suppliers directly can help obtain quotes, technical specifications, and installation support tailored to your needs.
