

Top 10 Cable Management Aluminum Profile Manufacturers

Overview

10 Best Cable Management Suppliers & Manufacturers This post lists top 10 cable management manufacturers and suppliers in USA. Take a look at Top 10 Alumin.

Key Takeaways

The leading manufacturers of aluminum profiles for cable management include Pierce Aluminum, Extrude-A-Trim, Profall, FINE Aluminum, FONNOV Aluminium, BORUSA Aluminum, Eagle Aluminum, Wellste, China Hongqiao Group, and Aluminum Corporation of China (Chalco).

Leading Manufacturers and Their Capabilities

-

Pierce Aluminum – Offers a wide range of aluminum products including channels, tubes, and custom profiles, with services like laser cutting, milling, welding, and finishing suitable for cable management applications .

-

Extrude-A-Trim – Specializes in aluminum extrusions such as angles, channels, and custom shapes, providing solutions for industrial and electrical enclosures .

-

Profall – Italian manufacturer producing standard and custom-designed aluminum profiles, including structural and cable management profiles .

-

FINE Aluminum – Provides industrial profiles, CNC aluminum products, heat sinks, and enclosures, with integrated fabrication, finishing, and assembly services .

-

FONNOV Aluminium – Produces custom and standard aluminum extrusion profiles for architecture, transportation, and industrial applications, offering multiple alloy and finishing options .

-

BORUSA Aluminum LLC – Ranked among the top aluminum profile manufacturers, supplying structural and industrial profiles suitable for modular cable management systems .

-

Eagle Aluminum – Offers high-quality aluminum extrusions for industrial and construction applications, including cable trays and support structures .

-

Wellste – Provides versatile aluminum profiles for machinery, storage racks, and cable management frames, emphasizing lightweight and corrosion-resistant designs .

-

China Hongqiao Group Limited – The world's largest aluminum producer, offering high-performance alloys and downstream fabrication suitable for industrial and electrical applications .

-

Aluminum Corporation of China Limited (Chalco) – Vertically integrated manufacturer producing aluminum profiles for construction, industrial electronics, and cable management systems, with advanced fabrication and finishing capabilities .

Key Considerations for Selection

- Profile Type: Hollow, solid, or open-end profiles with grooves for modular assembly.
- Alloy and Strength: High-strength aluminum alloys for load-bearing cable trays and racks.
- Finishing Options: Anodizing, powder coating, or custom surface treatments for corrosion resistance.

- Customization: Ability to produce custom shapes and sizes for specific cable management systems.
- Global Reach: Manufacturers with international distribution and support for large-scale projects.

These companies represent the most reliable and innovative suppliers for aluminum profiles used in cable management, offering a combination of high-quality materials, precision extrusion, and finishing services suitable for industrial, commercial, and infrastructure applications.
