

What are the Italian telecommunications tower projects

Overview

Telecom Italia formed a joint venture with Swisscom's Fastweb + Vodafone to build and manage 6,000 telecoms towers in Italy. The joint initiative by Fastweb + Vodafone and TIM is designed also to support the swift. Swisscom and Telecom Italia have partnered to significantly expand Italy's mobile network by building up to 6,000 new towers. The project, announced on March 19, 2026, capitalizes on a favorable financing environment following a record year for European loans and aligns with the continent's. Telecom Italia (TIM) and Fastweb (Swisscom) have struck a non-binding agreement to form a joint venture to build up to 6,000 telecom towers across Italy, with scope to include third-party investors later—building on an earlier 5G infrastructure-sharing deal. By Elvira Pollina MILAN, March 19. The project, set up as a joint venture, will also allow third-party investors to join at a later stage, the companies said in a statement. Telecom Italia (TIM) logo is seen displayed in this illustration taken, May 3, 2022.
