Metal cable trays in Zambia range from approximately \$0.89 to \$1.61 per meter, depending on material, type, and supplier.

Price Overview

The Zambian market for metal cable trays is influenced by global steel and zinc prices, shipping costs, and local demand from sectors like mining, construction, and data centers . Typical price ranges include:

- Industrial Energy-Saving Fireproof Galvanized Stainless Steel trays: around \$1.61 per meter, suitable for small projects with a minimum order of 1 meter .
- Open Mesh Galvanized Anti-Corrosion Metal Wiring Racks: approximately \$0.89 per square meter, ideal for bulk infrastructure projects .
- Zinc-Aluminum-Magnesium Perforated Cable Trays: starting at \$1.01 per meter, designed for long-term durability .

Material and Type Considerations

- Galvanized Steel: Common, cost-effective, corrosion-resistant for general use .
- Stainless Steel: Higher durability, suitable for harsh environments, slightly higher cost .

- **Fiberglass:** Lightweight, non-conductive, used in specialized applications .
 - **Perforated vs Solid Trays:** Perforated trays improve airflow and cooling, reducing cable overheating .
